## List of Tables and Figures

Table 1. Description of habitat variables for each 0.04 hectare plot in used and unused areas. ....	12
Table 2. Summary of habitat variables measured for microhabitat at foraging sites and random sites. ....	15
Table 3. Summary statistics for vegetation structure and floristics .....	18
Table 4. Canonical discriminant functions of vegetation variables standardized by within group variances following a complete discriminant analysis. ....	19
Table 5. Summary of indicator species analysis results for shrubs and trees in unused (0) and used (1) 10-hectare areas.....	21
Table 6. Summary statistics for diversity at the macrohabitat and microhabitat scales.	21
Table 7. Summary of indicator species analyses for trees at the 1-m scale.....	22
Table 8. Results of the separate regression analyses of Maui Parrotbill use vs. availability. ....	26
Figure 1. Current and historical range of Maui Parrotbill on Maui .....	5
Figure 2. Potential reintroduction sites for Maui Parrotbill on East Maui.. ....	7
Figure 3. Overview of Haleakalā National Park with inset of Manawainui area.....	9
Figure 4. Detailed overview of Manawainui study site.....	10
Figure 5. Distribution of Maui Parrotbill across the study site.....	17
Figure 6. Final NMS ordination for vegetation structure. ....	19
Figure 7. Final NMS ordination for floristics.....	20
Figure 8. Mean percent time parrotbill spent foraging on different plant species, height tier and trees size class in 8 different home ranges in Manawainui .....	24
