

ACKNOWLEDGEMENTS

Many people have contributed tireless efforts to the inventories of seabirds at Haleakalā. The Endangered Species Management, Feral Animal Management, Kīpahulu District, Maui Parrotbill Research, and Vegetation Management staffs at Haleakalā National Park conducted field surveys. Ron Nagata provided support for the project. Sarah Allen, Timmy Bailey, Brian Cooper, Bob Day, Holly Freifeld, Darcy Hu, Raina Kaholoa`a, Kelly Kozar, Gale Plana, and Joy Tamayose reviewed and provided helpful comments. Gordean Bailey, Timmy Bailey, Terry Lind, and Noelani Lee provided Hawaiian cultural information. Bobby Camara provided citations for Hawaiian cultural references. Josh Adams, Holly Freifeld and Nick Holmes provided valuable insight and research on ornithological radar and PIT tagging. Fern Duvall provided current information on `Ua`u Kani. Haleakalā National Park and the National Park Service Pacific Island Network Inventory and Monitoring program funded this project.
