

BOT 300 – Conservation Ethics – ETH focus

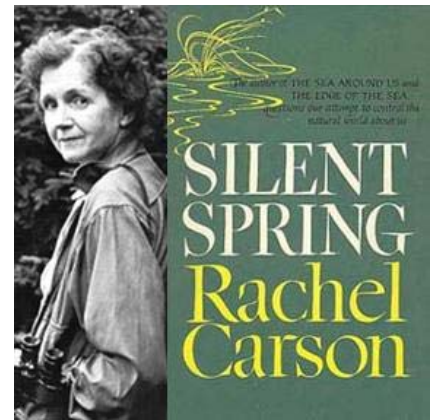

Pioneers:

Henry David Thoreau
John Muir
Theodore Roosevelt
Aldo Leopold
Rachel Carson...

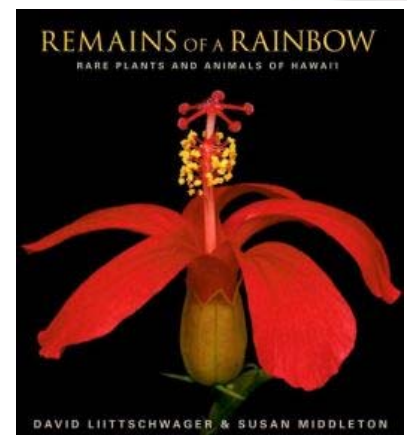

Philosophy:

Ethical decision-making frameworks
What rights do future generations have?
Who “owns” species?
Do non-human organisms have rights?

Practice:

Applying ethical frameworks
Prioritizing diverse conservation objectives
Assisted migration? Rewilding? De-extinction?
Ethical standards in research
Are there ethical issues involved in taxonomy?
Ethical obligations of professional scientists
